All human longing for the Ultimate is rooted in the context of the time in which it arises. It formulates its vision out of the language and symbols of its age in order to present a time-relevant approach to that which, in spite of all our striving, nevertheless and all times remains Holy Mystery. We will look at spirituality through the context of our time, consider the increasingly important connection between science and spiritual transformation, reflect on the expansion of consciousness that is being opened up for us, and use this new vision as a way to dialogue, to explore, to take back ownership of our personal God-quest. and to find food for the journey in each other and in God.

Barbara Fiand, a Sister of Notre Dame de Namur, teaches and gives lectures/retreats throughout the country and abroad on issues related to holistic spirituality, prayer, transformation of consciousness and quantum spirituality. She is the author of *In the Stillness You Will Know* and *Where Two or Three Are Gathered*.
